English

## SKILLS

HTML	CSS
JAVASCRIPT	PHP
JAVA	C#
REACT	SQL
GIT	FIREBASE
FRONTEND	BACKEND

## EXPERIENCES

**Ecommerce Website**  
Coffee Shop Ecommerce  
Designed an e-commerce website for a coffee shop as our first HTML/CSS project.

Jul 2021 – Dec 2021

**Academic Service Learning System**  
Worked on the frontend part of our school project.  
Developed a software design using React, Tailwind, and Firebase that records all inhabitants of a local barangay.

Dec 2022 – May 2023

**Web Development Project**  
Worked on the frontend and backend of our case study.  
Developed software using PHP, HTML, and CSS that displays the map of our university, includes a forum system, and features login/signup functionality with admin validation.

Jul 2023 – Dec 2023

**Software Engineering Project**  
Worked as a frontend on our software project.  
Developed a Next.js software application with TypeScript, Supabase, and Prisma. It functions as a Reddit clone exclusive to Adamson University students, recording all authorized university organizations.

Jul 2023 – Dec 2023

**Freelance Job**  
Data Entry  
Got a PNG-to-PDF conversion gig.

Present
